FOUO

NLE 02-08 Hot Wash

- Exercise development (G37 with FFE and ESF 3 Cadre and Divisions in support)
  - Must participate in exercise planning process early
  - MSEL needs to be developed and realistic
  - Exercise must be resourced…funding, people, time, OC package
- ESF 3 Temp Housing Mission (ESF Cadre)
  - Fully analyze ability to execute base camp construction ILO camper trailers
- USACE Products (FFE with Centers/Labs in support)
  - NORTHCOM wants more USACE products/data…modeling, analysis, mapping
  - Need to develop streamlined method to execute…with a MOA
  - Determine alternative funding methods
- C4SI (ESF Cadre, G33 with ACE-IT and Divisions in support)
  - Identify how to integrate ENGLINK with HSIN
  - Goes beyond exercises into real world C2 issues…DRRS-A, HSIN
  - Common Operating Picture is a must and has to support all hazard

FOUO

NLE 02-08 Hot Wash

- ACE-IT (NAD with G33 and ACE-IT in support)
  - NAD reports great support from ACE-IT
  - Resource COOP and other selected missions with secondary digital equipment
  - Did not fully test ACE-IT concept
- Integration of FEST (G35, NWD, ENCOM)
  - Develop procedures and understanding on how to integrate FEST in NORTHCOM C2 nodes…exercise and include in OPLANs
  - Is NWD still required to support NORTHCOM C2 nodes
  - Integration of TL/ATL capabilities in NORTHCOM C2 nodes
- De-conflict USACE support to NORTHCOM and FEMA (FFE and ESF Cadre)
  - Title X engineer support
  - Traditional ESF 3 support
- COOP (G35)
  - Develop a secondary COOP site
  - Hone TOC operations and SOPs and update administrative information
  - Digital activation system requires modifications…telephone, LDD, and
